Remember Me

**SIGN IN**

It will allow you to see attendees and the orders immediately on your phone.

The link for I phones and android phones can be found below.

Your volunteers need to download these apps and add the following logins codes when scanning ticket holders using their phones.

Once the app has been downloaded it will ask them to put their name in and this is to name their device within the system.

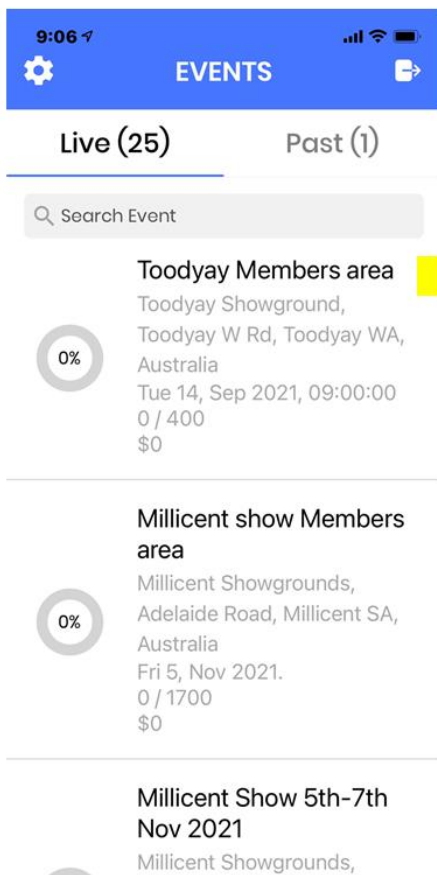

They switch to online mode if you have phone reception .

This app allows you to see all the information live.

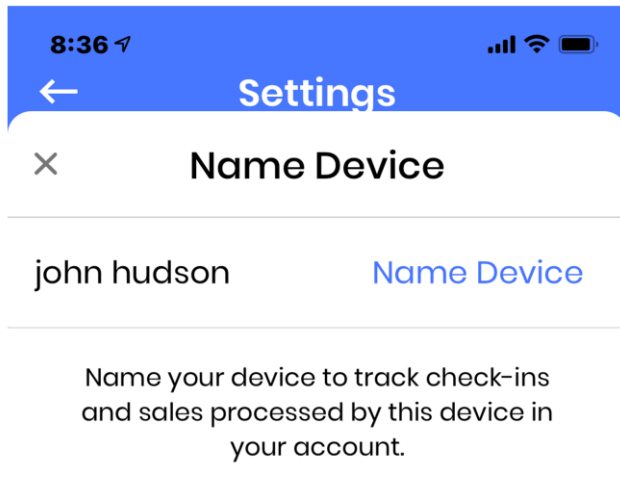

Once your gate keepers have downloaded the app and named their device they then select attendees.

Once app is downloaded

### Step 1. select your event

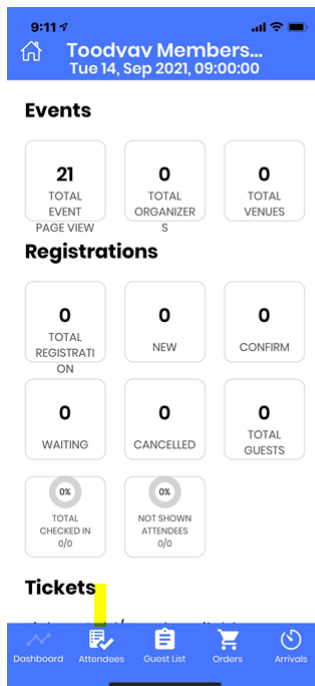

**Step 2 Add your device name where asked ( if you have phone reception select online) Top will be blue**

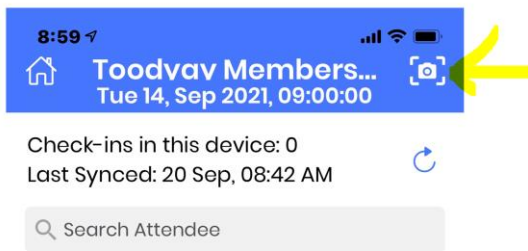

**Step 3**

**Return to dashboard menu and select your show .**

**Then select attendees**

**Step 4 Select camera at top of screen and you are ready to scan a ticket .**

**Step 5 use camera just like Qr code scanner . Screen will come up Green with attendee accepted**
